STUDIO WEBWARE

The Studio Designer subscription is month to month and can be cancelled at any time.

Studio Designer Basic (includes 100,000 records of data storage)	$25 / user / month
Studio Designer Professional (includes 100,000 records of data storage)	$35 / user / month
Read Only User (to maintain online data storage includes 100,000 records)	$15 / month
100,000 records of data storage add-on	$7.50 / month

An average user requires approximately 10,000 records per year.
This will vary depending on individual users.

There will be an additional monthly charge for each additional 100,000 records of data storage used above the total amount allocated for all users. This fee is per company and not per user. This fee begins with the first record over the total number of records allocated.

All pricing is in US Dollars and is subject to change as provided in the Master Subscription Agreement or as changed from time-to-time by Studio Webware with respect to levels of Studio Designer not currently subscribed for by Subscriber.
